

# Mackmyra *Intelligens AI:02*

The second release of the world's first whisky created by AI. Think Terminator 2 technology, but this time it's for the good of humanity; Award-winning recipes and using Microsoft and Fourkind powered AI to whittle down 70 million options to just a handful. The master blender chooses the final expression, an elegant whisky with flavours of spicy pepper, vanilla fudge, citrus, oak and discreet smoke. Skål!
